SPONSORSHIP PACKAGE 2019

What is BizHacks?

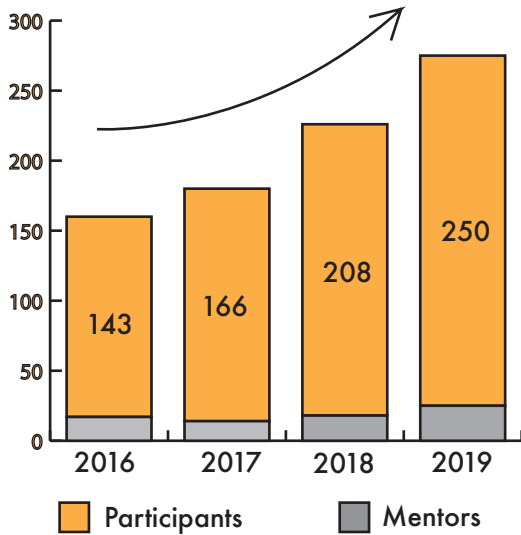

BizHacks, since late 2015, have worked tirelessly to bridge the gap between business and technology. To facilitate our vision, we gather students from different areas of expertise to solve existing business challenges that corporations face today. By doing so, students have been able to apply their technical and business skills that has helped prepare for them for their future endeavours. Our mission at BizHacks, is to create a one-of-a-kind platform to connect students and corporate organizations along with the inter-relationship development across universities and faculties, and ultimately “enables accelerated creation” in both students, organizations and schools.

Why Sponsor Us?

As a new initiative entering into SFU, and the existing UBC presence of BizHacks, there are limitless opportunities for companies to find the talent and information needed to facilitate the growth of your company, while building connections and relationships with students and faculty members with BizHacks. Companies could enjoy exposure to the benefits below and more:

- Hold exclusive events for students, such as hackathons and workshops for both business and computer science students.
- Hold events with BizHacks to promote cross-collaboration between different university students.
- Have access to a pool of the top most qualified students from both the business and applied sciences faculties at SFU and UBC for hiring purposes.
- Develop strong brand presence to students interested in internships, part-time, and full-time positions.
- Involve companies' employees to mentor and network with students to exchange ideas.

BIZHACKS IN A NUTSHELL

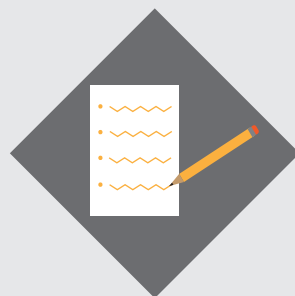

"INCREASE IN THE NUMBER OF PARTICIPANTS OVER THE PAST 3 YEARS"
